Will an OMS - Commerce Cloud Cartridge Help My Business?

Salesforce Commerce Cloud is a great choice for your eCommerce platform. One of the best parts is the flexibility that Salesforce imparts with its cartridge and certification program. Now that you have a great online platform, you can select a best-in-class order management system (OMS) to complement it perfectly. That's where OrderDynamics comes in.

Aside from having a strong history of integrating the leading specialized order management platform to Commerce Cloud customer systems, it is now easier to seamlessly integrate than ever.

OrderDynamics' Commerce Cloud cartridge is fully Salesforce Certified, giving you the confidence that connecting to the world-class OrderDynamics OMS with the capacity, depth and functionality you need - is seamless, and risk free.

It helps your business, by being able to select two best-in-class solutions that give your shoppers a seamless omni-channel buying experience.

Certified Cartridge 5 Reasons Why

Having an online retail presence helps you boost revenue and extend your brand. Having an omni-channel presence that has real-time inventory, takes orders online, and encourages customers to pickup their order in-store, is even better. That's why you want Commerce Cloud seamlessly connected to OrderDynamics' Order Management System.

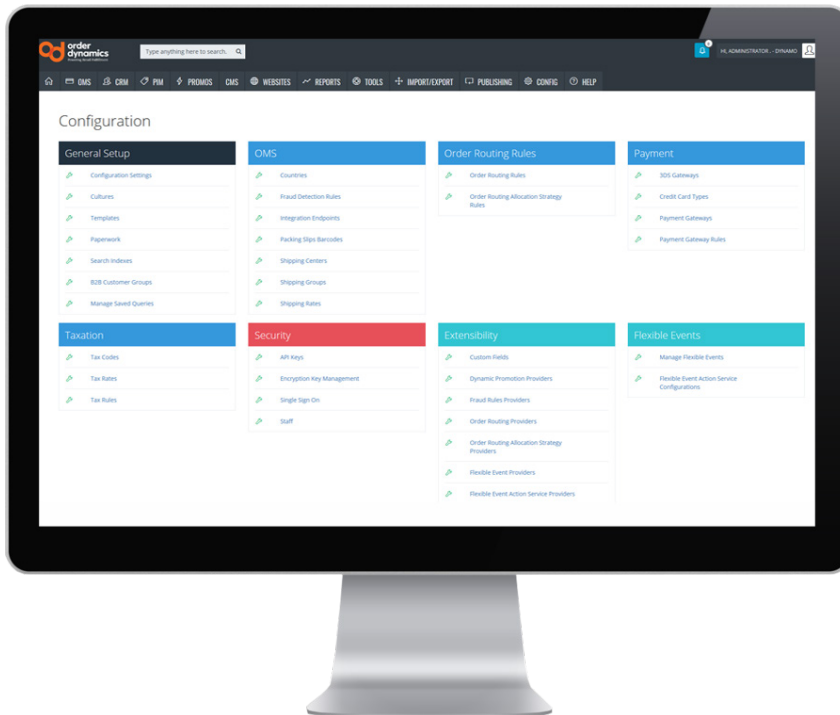

Using a Commerce Cloud Certified cartridge to connect to an OMS gives you:

- Peace of Mind (lower risk)
- Speedier Integration
- Tested Seamless Integration
- Cost Effective Process
- Options From the Commerce Cloud Ecosystem

All told, connecting your new Commerce Cloud platform to an OMS like OrderDynamics' makes good business sense. Tied with a new and continually updated OrderDynamics' Cartridge - you will have a world-class SaaS-based Unified Commerce solution built on the best available retail technology. This combined flexibility, configurability, and scalability means you are on the right track!

Advanced Features You Can Count On

Choosing Commerce Cloud for your online retail presence is a smart move. Then choosing a specialized, and highly robust advanced order management system to seamlessly connect to your Commerce Cloud platform, builds an unstoppable system. An OrderDynamics OMS integrated with the ease of the Commerce Cloud certified cartridge, means you are getting best-in-class performance, reliability, and massively scalable capacity. Black Friday, Boxing Day, Cyber Monday, Singles Day, anyday: the OrderDynamics OMS and Commerce Cloud integrated platform gives you the optimal performance today's retail demands!
