

Omni™ WMS

Designed for Industrial Distributors

Challenges

The world of distribution is evolving at a pace we've never seen before. Therefore, distributors need to leverage technology to ensure they remain competitive while achieving a high level of customer satisfaction.

As distributors outgrow the basic inventory management capabilities in their current system, they need the right warehouse technology to gain end-to-end visibility, improve order accuracy and inventory management, reduce operational costs and increase warehouse space utilization.

Full-featured Warehouse Management System

Omni™ WMS controls all operations from when the goods arrive in the warehouse until when the shipments leave the warehouse. The result is your inventory is managed in real time allowing you to make fast, data-driven decisions and increase profitability.

Key Benefits

Manage Inventory and Costs

- Efficient inventory management tools and increased productivity.
- Secure identification of goods.
- First in, first out (FIFO) and batch management.
- Reduced stock quantities.

Improve Productivity

- Faster picking with multi-pick algorithms saving 30% transport time.
- Shorter turnaround on orders.
- Fewer picking errors.
- Correct handling of goods.

Deploy Rapidly

- Quick onboarding to start fulfilling customer orders without delays.
- Intuitive software, easy to learn and use – requires only 10 minutes of training.

Integrate Technology

- Easily integrate to automated systems and robots to stay ahead of the competition.

Gain Insights

- Executive dashboards for quick access to accurate data.
- Improved customer satisfaction.

About **Tecsys**

Since our founding in 1983, so much has changed in supply chain technology. But one thing has remained consistent across industries, geographies and decades – by transforming their supply chains, good organizations can become great.

Our solutions and services create clarity from operational complexity with end-to-end supply chain visibility. Our customers reduce operating costs, improve customer service and uncover optimization opportunities.

We believe that visionary organizations should have the opportunity to thrive. And they should not have to sacrifice their core values and principles as they grow. Our approach to supply chain transformation enables growing organizations to realize their aspirations.
