

ONE

SPRINT™

to World-class WMS Fulfillment

TECSYS®

Warehouse Management Challenges

Today's warehouse operations are most vital to delivering on promises made to customers and achieving a high level of customer satisfaction. Through the effective use of best-in-class processes and modern technology, today's distributors are enabled to gain end-to-end visibility, improve order accuracy and inventory management, reduce operational costs and at the same time achieve a high level of customer service. For SMBs, startups or smaller entities in large organizations, they are facing equal challenges plus more, including:

1. Robust WMS capabilities closely matched to their business needs.
2. Quick onboarding to start fulfilling customer orders without delays.
3. No capital outlay, low monthly subscription fee.
4. Low risk deployment—from proof of concept to wider-scale implementation on the Cloud.
5. Minimal resource allocation to support the application.
6. Intuitive software, easy to learn and use.
7. Secure access from anywhere.

TECSYS' ONE SPRINT™

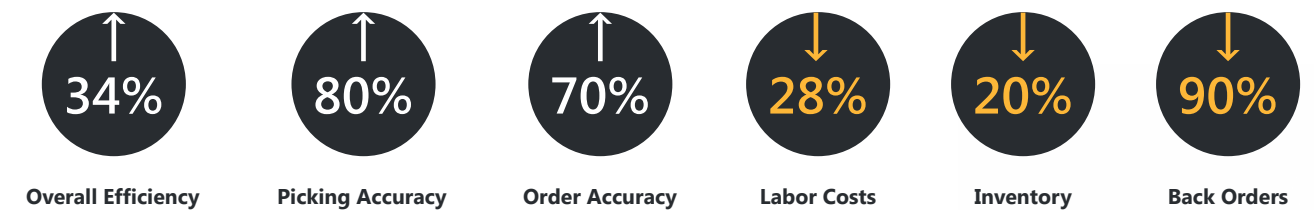

Superior Supply Chain Platform

OneSprint leverages TECSYS' agile supply chain platform that puts proven innovations, software elasticity and optimum user experience at the front of the fulfillment challenges of small to large distribution operations.

OneSprint is a complete WMS package that enables a distribution organization to fast-track their fulfillment execution initiatives to meet their customer commitments without delays. OneSprint leverages TECSYS' intuitive platform in the Cloud and delivers world-class WMS capabilities with just the right fit for your business. It helps customers meet today's volatile fulfillment challenges using best practices and enables them to reach a high level of customer responsiveness in the shortest period of time.

According to a leading industry analyst, "TECSYS' visual logistics technology allows users to perform sophisticated tasks in the supply chain market without any delays, a feat that is not possible with competing WMS technologies. It is also the only solution in the market that allows users to adapt and personalize the WMS according to their specific and ever-evolving needs."

Performance Improvements Experienced by TECSYS' WMS Customers*

*Actual results will vary depending on the complexity of the warehouse and type of distribution operation.

OneSprint All-in-One WMS Package

ROBUST

OneSprint WMS package is based on TECSYS' advanced WMS product—a visionary in Gartner's Magic Quadrant. It is one of the top WMS on the market and the only one that includes TECSYS' patented visual logistics technology installed at hundreds of customer locations.

RIGHT-FIT

Configured to be "just the right fit" for your business. From the rich content of TECSYS' advanced WMS capabilities, features are selected to match your specific business needs.

SCALABLE

OneSprint WMS is flexible, adaptable and highly scalable to the size and needs of businesses. It allows distribution organizations to deploy the system across a variety of operations, a single solution providing bi-directional scalability to support simple or highly sophisticated distribution operations.

ON-CLOUD

OneSprint delivers world-class functionality on a leading cloud infrastructure, enabling a 99.9% uptime guarantee, swift-start onboarding, high availability, reliability and security. The OneSprint Cloud package offers businesses a high degree of agility and a path for growth. With TECSYS' cloud, you need minimal IT staff to support your applications. By delegating your IT infrastructure to TECSYS, you can stay focused on offering your unique value to your customers.

INTELLIGENT

OneSprint is configurable and adaptable to the needs of each individual customer. Leveraging TECSYS' more than three decades of industry expertise, it combines the power of a set of tools, templates and process documentation that can quickly and easily be adapted to your own distribution operations.

VISUAL

Visual content, a paradigm shift in WMS, optimizes execution abilities in all warehouse environments. It empowers users to become more informed, efficient and highly accurate at executing their tasks, while enabling them to become more responsive to their clients. Without any programming, users can expand their visual content library on their own using the easy-to-use TECSYS Platform.

SWIFT-START

TECSYS' OneSprint WMS delivers one of the industry's fastest customer onboarding experiences to meet the distribution challenges of small to large organizations. OneSprint leverages TECSYS' innovative supply chain platform, implementation tools and methodologies that help customers achieve the highest value in the shortest period of time.

About TECSYS

For over three decades, TECSYS has been providing best practice supply chain management solutions to high-volume distribution customers around the globe. The company's WMS is recognized by leading industry analysts as one of the top WMS and most visionary products on the market.

This strong position, backed by the extensive expertise of TECSYS' consultants and R&D staff, is the foundation of the company's solutions delivered to small, mid-size and large distribution organizations such as Accelerated Christian Education, Adidas, Canon, Cardinal Health, DB Schenker, Humana, Intermountain Healthcare, eOne Entertainment, LifeScience Logistics, LoyaltyOne, Milton CAT, Parkview Health, Spring ISD, The LCBO, TTS Group and SCP Corp., among many others who have turned their most valuable distribution asset—their warehouse—into their most powerful competitive weapon.

"With TECSYS' supply chain platform we have built a great business model. It was one of the major pillars on which we started LifeScience Logistics that has enabled us to grow to a multimillion dollar company."
