

Omni™ Retail Solutions

Power your omnichannel buying experiences. Tecsys' **out-of-the-box retail fulfillment solutions** enable your customers to choose how, where and when they receive their orders, all the while optimizing and prioritizing routes to minimize costs and impacts to your supply chain.

What We Offer

End-to-end retail fulfillment software and technology:

Omni™ OMS | Omni™ WMS | Omni™ TMS | Omni™ Analytics

Order Orchestration and Inventory Visibility

Omni™ OMS is a cloud-native SaaS order management system that provides advanced inventory visibility, order routing, store fulfillment and customer management functionality to optimize omnichannel commerce.

E-commerce Fulfillment Warehouse

Designed for the omnichannel retailer, Omni™ WMS is a cloud-based, scalable and adaptable solution that brings efficiency and speed to your warehouse operations.

Last Mile Delivery Management

Omni™ TMS increases control over your fleet deliveries and pickups. Automate delivery management and gain visibility into where your drivers and assets are at all times.

Micro-fulfillment

Take store fulfillment to the next level. Advanced "store-as-warehouse" functionality provides in-store pick and pack workflows that streamlines the fulfillment process and delivers speed, efficiency and cost savings.

Forrester

Tecsys featured in Forrester's Now Tech: **Omnichannel Order Management Systems**, Q1 2021.¹

Gartner

Tecsys named in the Top 20 Gartner® Market Guide for **Distributed Order Management Systems**.²
